USE THIS NOT THAT

SIX FREE ALTERNATIVES TO EXPENSIVE PROGRAMS THAT WILL SPARK STUDENT CREATIVITY!

Tool: Edmodo

At: <http://pender.edmodo.com>

Alternative To: Blackboard or Moodle

What It Does: Edmodo is a Facebook-like learning management system that allows you to create a secure network with your students, create online assessments, share files with them, and network with other teachers. It's very user-friendly.

Platform: Web-based, works in your browser.

Tool: The GIMP

At: Start-->PCS Technology Info-->Installs-->Apps-->GIMP

Alternative To: Photoshop

What It Does: Full-featured image editing, design, creation. The basics are pretty straightforward but it can handle complex editing, too. Lots of YouTube tutorials available.

Platform: Download for teachers or students.

Tool: Screencast-o-Matic

At: <http://www.screencast-o-matic.com>

Alternative To: Camtasia

What It Does: Allows you to record anything you do on your computer screen, including your voice and publish to YouTube or download the video. Great way for creating tutorials for your students or to have students do their own tutorials or presentations.

Platform: Web-based, works in your browser.

Tool: Popplet

At: <http://popplet.com>

Alternative To: Mindmeister

What It Does: Allows you to create drag-and-drop flowcharts, brainstorm, and diagrams. Simple to use. Great, visual tool for project planning, concept exploration, etc.

Platform: Web-based, works in your browser.

Tool: ToonDoo

At: <http://www.toondoo.com>

Alternative To: Comic Life

What It Does: Allows students to easily create comics that they can use to tell stories and demonstrate their understanding of concepts in a creative way. Students can share and download their creations, too.

Platform: Web-based, works in your browser.

Tool: Gamestar Mechanic

At: <http://gamestarmechanic.com>

Alternative To: Commercial Game Creation Tools

What It Does: In addition to teaching students about the fundamentals of game design, this system allows students to create their own games that work right in their browser. Game design is a great way to demonstrate concepts learned.

Platform: Web-based, works in your browser.
